2026 — 2030

BCs Computer Science Chuka University

Feb 2026 — Aug 2026

Computer Essentials & Web Development Ta'awun Vocational Training College

2022 — 2025

Bungoma Boys' High School

About Me

Web Developer, *Freelancer*

I am a Computer Science student and a Web Developer who builds real projects using **HTML**, **CSS** and **JavaScript**. I write clean codes, shape UI and refine the details making websites work smoothly. I also learn **Cybersecurity**; I learn how to break into systems and also protect systems against potential threat.

Projects

- **My Portfolio Website**
 - Build with HTML, CSS and JavaScript featuring modern styles such as Terminal and modern cursor.
 - Live Link: vyronevra.vercel.app

- **Ashbourne School of Technology**
 - A fictional academia website made responsive with HTML, CSS and JavaScript.
 - Live Link: ashbourneschool.vercel.app
- **Ellington's Motor**
 - A multi-paged website for a fictional car dealership made with HTML, CSS and JavaScript.
 - Live Link: ellingtons-motors.vercel.app
- **Mama Njeri's Kitchen**
 - My debut website made with HTML and CSS for a hotel in Nairobi.
 - Live Link: mama-njeri-kitchen.vercel.app
- **CodePanda Login Page**
 - A login page for a fictional website where developers share their projects with one another.
 - Live Link: codepanda-xi.vercel.app

Skills

HTML

CSS

JavaScript

Cybersecurity

Git

GitHub

Certification
